The LEARNING INSTITUTE FOR THE GROWTH OF HIGH TECHNOLOGY (L.I.G.H.T.) is the training and consulting division of

Greetings!

The Learning Institute for the Growth of High Technology (L.I.G.H.T.), is a 17,000 square foot industrial training center located on the main campus of Penn United Technologies, located in rural Butler County, just 35 miles northeast of Pittsburgh, Pennsylvania.

L.I.G.H.T. provides customized training to meet your specific manufacturing training needs in a variety of areas including, but not limited to:

- o Manual and CNC Machining
- o Manual and CNC Grinding
- o CNC Programming
- o Press Technology
- o Quality and Measurement
- o Die Maintenance
- o Carbide Grinding
- o Lean Manufacturing
- o Safety

Customized, personalized advanced manufacturing training to meet your company's specific needs.

Our Mission:

L.I.G.H.T. is committed to providing the best training, technical writing, consulting and community development services for Penn United customers in a manner that adds value wherever we serve.

Our Vision:

To develop L.I.G.H.T. to be a lasting entrepreneurial training and consulting organization that strives to achieve the highest standards and be a model by which our customers, suppliers, other business, and community measure excellence.

L.I.G.H.T. offers training to the public and other industries through its roster of 37 courses and its growing selection of metalworking seminars and workshops. In cases where the standard program or course is not specifically what the customer desires, we customize training to suit the customer's need. We also provide consultation assistance on a wide range of services spanning from metalworking skills, to quality, lean manufacturing, safety and more... Taking advantage of our staff's core competencies, we are able to provide technical writing services for both internal and external customers. We have produced many materials, such as machine user/operator manuals, process picture maps, and visual training aids for a variety of customers and applications.

At L.I.G.H.T., we believe in the importance of corporate citizenship. L.I.G.H.T. staff members play a very active role in the community through its participation on boards and committees, such as the Butler County Manufacturing Consortium, Workforce Investment Boards, and the involvement with local Vocational Technical schools, as well as the National Tooling and Machining Association (N.T.M.A.), and the National Institute for Metalworking Skills (N.I.M.S.). Our Journeymen instructors offer the highest quality, cutting edge training in our industry. Our instructors will add value to your company's greatest asset . . . your employees.

Penn United Technologies and L.I.G.H.T. are dedicated to providing world-class training to meet our customer's needs. Whether it is an internal or external customer, teaching or technical writing, a four-hour class or a 200-hour course, a visual aid or a manual, the same quality effort goes into the development and delivery of each job.

Choose the training location that is best for you - train at our training facility in Western Pennsylvania or we can train on site at your business location!
