Penn United Technologies, Inc. receives Pinnacle Award from Delphi Automotive

On Thursday, May 12, Penn United Technologies, Inc. received a 2015 Pinnacle Award from Delphi Automotive, its most prestigious supplier honor. Penn United was recognized for its contributions to Delphi's Excellence culture and commitment to quality, value and cost performance.

From Penn United, Mr. Jim Mahan, Vice President and Mr. Todd Bowser, Sales Engineer were present at the Pinnacle Award ceremony to accept this significant recognition of the company's efforts.

Mr. Mahan said "We are honored to receive this prominent award from Delphi. Our values are focused on serving our customers, meeting our commitments, and providing long-term support. We view the Pinnacle Award as validation of that focus, and we are excited to be part of promoting Delphi's long-term goals."

"Suppliers like Penn United Technologies play a significant role in Delphi's success," said Sidney Johnson, senior vice president, Delphi supply chain management. "They help us provide our customers with globally relevant solutions that capitalize on the megatrends of safe, green and connected. We appreciate Penn United's outstanding performance and understanding that excellence is simply how we operate."

Delphi recognized 32 suppliers from 13 countries with its 2015 Pinnacle Award.
