# AMERICAN CARBIDE TOOLING DIVISION

At Penn United's American Carbide Tooling division we provide our customers with far more than the average tooling supplier. We are uniquely capable of producing components from the raw powder form completely through the finish grinding process. This complete control of the manufacturing process gives Penn United a distinct advantage in manufacturing the highest quality parts available. We can help with the selection and customization of materials and grades specifically for your needs. Please contact us for more information including material grade sheets and our ACT<sup>®</sup> catalog. We hope you will join our family of satisfied customers.
